

## SAFETY DATA SHEET

According to REACH Regulation (EC) No 1907/2006, as amended by Regulation UK SI 2019/758 and UK SI 2020/1577.

### SECTION 1. IDENTIFICATION OF THE MIXTURE AND COMPANY

#### 1.1 Product Identifier

Product Name	Bed Bath Wipes
Product Reference	Skin 1-9

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified use(s)	Wet Wipes
Uses advised against	No information available

#### 1.3 Details of the supplier of the safety data sheet:

Saraco Industries  
Egerton Street, Farnworth  
Bolton  
BL4 7ER

#### 1.4 Emergency Telephone:

+44 (0) 1204861384

### SECTION 2: HAZARD IDENTIFICATION

#### 2.1 Classification of the substance or mixture

Classification (GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567)

Not Classified

#### 2.2 Label elements

Labelling (GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567)

Hazard Pictograms	None required
Signal Word	None assigned
Hazard statements	None required
Precautionary Statements	None required
Supplemental information	None

#### 2.3 Other Hazards

No other hazards known

## SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substances  
Not applicable

3.2 Mixtures

According to GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567

Ingredient name	CAS Number	% (w/w)	Hazard Statements
Glycerin	56-81-5	>0.1% - ≤ 1.0%	Not Classified

For the full text of the H- & P-Statements mentioned in this Section, see Section 16.

## SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

- General:** If symptoms persist, call a Doctor.
- Eye contact:** If this product comes in contact with eyes: Wash out immediately with water. If irritation continues seek medical attention. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.
- Skin contact:** If skin irritation occurs: Flush skin and hair with running water. Seek medical attention in event of irritation.
- Ingestion:** Immediately give a glass of water. First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.
- Inhalation:** If fumes, aerosols, or combustion products are inhaled remove from contaminated area. Other measures are usually unnecessary.

4.2 Most important symptoms and effects, both acute and delayed

- Inhalation:** The material is not thought to produce adverse health effects (as classified by EC Directives). Good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting.
- Ingestion:** The material is not thought to produce adverse health effects (as classified by EC Directives). Gastrointestinal tract discomfort may produce nausea and vomiting. In an occupational setting however, ingestion of insignificant quantities is not thought to be cause for concern.
- Skin Contact:** The material is not thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives). Good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting.
- Eye:** Although the product is not thought to be an irritant (as classified by EC Directives), direct contact with the eye may produce transient discomfort characterised by tearing or conjunctival redness (as with windburn).

Unit 18 Yalberton Tor Industrial Estate,  
Alders Way, Paignton, Devon, TQ4 7QN, U.K.  
Tel: +44 (0) 1803 520048  
Fax: +44 (0) 1803 520910  
[enquiries@adslaboratories.com](mailto:enquiries@adslaboratories.com)  
[www.adslaboratories.com](http://www.adslaboratories.com)

**Chronic:** Long-term exposure to the product is not thought to produce chronic effects adverse to health (as classified by EC Directives); nevertheless, exposure by all routes should be minimised as a matter of course.

#### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes for doctor:** No specific recommendations.

## SECTION 5: FIREFIGHTING MEASURES

### 5.1 Extinguishing Media

**Suitable:** Use water spray, alcohol resistant foam, dry chemical, or carbon dioxide. Keep containers and surroundings cool with water spray.

**Unsuitable:** No full water jet.

### 5.2 Special hazards arising from the substance or mixture

**Hazardous combustion products** Thermal decomposition or combustion products may include the following substances: Oxides of carbon. Toxic gases or vapours.

### 5.3 Advice to firefighters

**Special protective equipment:** Fire fighters should wear complete protective clothing including self-contained breathing apparatus.

**Further information** Not flammable. Containers may burn. Cool endangered containers or product by spraying with water. In the event of fire do not breathe fumes. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

**Personal precautions** For personal protection, see Section 8. Treat the spilled material according to the instructions in the clean-up section. Take care as floors and other surfaces may become slippery

### 6.2 Environmental Precautions

**Environmental Precautions:** Prevent the material from entering drains or water courses. Advise authorities if spillage has entered water course or sewer.

### 6.3 Methods and materials for containment and cleaning up

**Methods for cleaning up** Contain and absorb using earth, sand, or other inert material. Transfer into suitable containers for recovery or disposal.

Unit 18 Yalberton Tor Industrial Estate,  
Alders Way, Paignton, Devon, TQ4 7QN, U.K.  
Tel: +44 (0) 1803 520048  
Fax: +44 (0) 1803 520910  
[enquiries@adslaboratories.com](mailto:enquiries@adslaboratories.com)  
[www.adslaboratories.com](http://www.adslaboratories.com)

**Minor Spills:** Clean up all spills immediately. Avoid breathing vapours and contact with skin and eyes. Control personal contact with the substance, by using protective equipment. Contain and absorb spill with sand, earth, inert material, or vermiculite. Wipe up. Place in a suitable, labelled container for waste disposal.

**Major Spills:** Clear area of personnel and move upwind. Alert Fire Brigade and tell them location and nature of hazard. Control personal contact with the substance, by using protective equipment. Prevent spillage from entering drains, sewers, or water courses. Recover product wherever possible. Put residues in labelled containers for disposal. If contamination of drains or waterways occurs, advise emergency services.

#### 6.4 Reference to other sections.

**Reference to other sections** For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see Section 13.

## SECTION 7: HANDLING AND STORAGE

### 7.1 Precautions for safe handling

**Usage precautions (material in bulk):** Limit all unnecessary personal contact. Wear protective clothing when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink, or smoke. Avoid physical damage to containers. Always wash hands with soap and water after handling. Use good occupational work practice. Observe manufacturer's storage and handling recommendations contained within this SDS. Atmosphere should be regularly checked against established exposure standards to ensure safe working conditions are maintained.

### 7.2 Conditions for safe storage, including any incompatibilities

**Storage precautions** Store in tightly-closed, original container in a dry, cool and well-ventilated place. Store at room temperature. Keep out of the reach of children.

### 7.3 Specific end use(s)

**Specific end use(s)** Product is designed as a Wet Wipes for home use and is safe when used in accordance with manufacturer's instructions.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control Parameters

Occupational exposure limits: UK EH40

Component	Cas No.	Workplace Exposure Limits			
		Long-term exposure limit (8-hr TWA ) WEL		Short-term exposure limit (15-minute) WEL	
		ppm	mg.g <sup>3</sup>	ppm	mg.m <sup>3</sup>
Glycerol, mist	56-81-5	-	10	-	-

WEL = Workplace Exposure Limit.

### 8.2 Exposure Controls

**Appropriate engineering controls** Provide adequate ventilation

**Eye Protection:** No specific eye protection required during normal use.  
For handling bulk:  
Safety glasses with side shields Chemical goggles. Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lens or restrictions on use, should be created for each workplace or task. This should include a review of lens absorption and adsorption for the class of chemicals in use and an account of injury experience. Medical and first-aid personnel should be trained in their removal and suitable equipment should be readily available. In the event of chemical exposure, begin eye irrigation immediately and remove contact lens as soon as practicable. Lens should be removed at the first signs of eye redness or irritation - lens should be removed in a clean environment only after workers have washed hands thoroughly.

**Hand Protection:** No specific hand protection required during normal use.  
For handling bulk: Wear general protective gloves, e.g. light weight rubber gloves. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application. The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and has to be observed when making a final choice.  
Suitability and durability of glove type is dependent on usage. Important factors in the selection of gloves include frequency and duration of contact, chemical resistance of glove material, glove thickness and dexterity Select gloves tested to a relevant standard (e.g. Europe EN 374, US F739, AS/NZS 2161.1 or national equivalent). When prolonged or frequently repeated contact may occur, a glove with a protection class of 5 or higher (breakthrough time greater than 240 minutes according to EN 374, AS/NZS 2161.10.1 or national equivalent) is recommended. When only brief contact is expected, a glove with a protection class of 3 or higher (breakthrough time greater than 60 minutes according to EN 374, AS/NZS 2161.10.1 or national equivalent)

is recommended. Contaminated gloves should be replaced. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly.

- Respiratory Protection:** Respiratory protection if there is a risk of exposure to high vapour concentrations.
- Body protection:** No special equipment needed when handling small quantities.  
**OTHERWISE:** Overalls. Barrier cream. Eyewash unit.
- Environmental exposure controls:** Avoid releasing into the environment.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

Form	Wipe dosed with colourless liquid
Colour	Characteristic
Odour	Perfumed
Odour threshold:	Not determined
pH	4.5-5.0
Melting point	No data available
Initial Boiling Point and boiling range	No data available
Flash point	No data available
Evaporation rate	No data available
Flammability	Not considered to be flammable.
Lower and upper explosion limit	No data available
Vapour pressure	No data available
Vapour density	No data available
Specific gravity	0.99 – 1.00
Solubility	No data available
Partition coefficient: n-octanol/water (log value)	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Viscosity	No data available
Solids Content	No data available
Water	Not determined

- 9.2 Other information:  
Other Information Not relevant

## SECTION 10: STABILITY AND REACTIVITY

- 10.1 Reactivity  
Reactivity Stable at normal ambient temperatures
- 10.2 Chemical stability  
Stability Stable at normal ambient temperatures

Unit 18 Yalberton Tor Industrial Estate,  
Alders Way, Paignton, Devon, TQ4 7QN, U.K.  
Tel: +44 (0) 1803 520048  
Fax: +44 (0) 1803 520910  
[enquiries@adslaboratories.com](mailto:enquiries@adslaboratories.com)  
[www.adslaboratories.com](http://www.adslaboratories.com)

- 10.3 **Possibility of hazardous reactions**  
Possibility of hazardous reactions: No hazardous reactions known if used for its intended purpose.
- 10.4 **Conditions to avoid**  
Conditions to avoid Avoid exposure to high temperatures or direct sunlight.
- 10.5 **Incompatible materials**  
Materials to avoid None known.
- 10.6 **Hazardous decomposition products**  
Hazardous decomposition products: Does not decompose when used for intended uses. In case of fire: Toxic fumes may be formed.

## SECTION 11: TOXICOLOGICAL INFORMATION

- 11.1 **Toxicological Information**
  - Acute Toxicity - Ingestion Based on available data the classification criteria are not met. Ate mix Estimated >2000mg/kg
  - Acute Toxicity - Inhalation Based on available data the classification criteria are not met.
  - Acute Toxicity - Dermal Based on available data the classification criteria are not met.
  - Skin corrosion/irritation Based on available data the classification criteria are not met.
  - Serious eye damage/irritation Based on available data the classification criteria are not met.
  - Respiratory or skin sensitisation Based on available data the classification criteria are not met.
  - Germ cell mutagenicity Based on available data the classification criteria are not met.
  - Carcinogenicity Based on available data the classification criteria are not met.
  - Reproductive toxicity Based on available data the classification criteria are not met.
  - STOT - Single Exposure Based on available data the classification criteria are not met.
  - STOT - Repeated Exposure Based on available data the classification criteria are not met.
  - Aspiration hazard Based on available data the classification criteria are not met.
- 11.2 **Other information**  
Other information None known

## SECTION 12: ECOLOGICAL INFORMATION

- 12.1 **Toxicity**  
Toxicity There is no data on ecotoxicity of the product. Based on available data classification criteria are not met.

Unit 18 Yalberton Tor Industrial Estate,  
Alders Way, Paignton, Devon, TQ4 7QN, U.K.  
Tel: +44 (0) 1803 520048  
Fax: +44 (0) 1803 520910  
[enquiries@adslaboratories.com](mailto:enquiries@adslaboratories.com)  
[www.adslaboratories.com](http://www.adslaboratories.com)

**Toxicity to Daphnia and other aquatic invertebrates**

Immobilisation EC50 - Daphnia magna (Water flea) - Not determined

**12.2 Persistence and degradability**

Biodegradability Biotic/Aerobic - not determined.

**12.3 Bioaccumulative potential**

No data available

**12.4 Mobility in soil**

No data available

**12.5 Results of PBT and vPvB assessment**

This mixture does not contain any substances that are assessed to be a PBT or a vPvB

**12.6 Other adverse effects**

No data available

Biochemical Oxygen Demand (BOD) Not determined

Chemical Oxygen Demand (COD) Not determined

## SECTION 13: DISPOSAL CONSIDERATIONS

**13.1 Waste treatment methods**

Dispose of to a licensed disposal company in accordance with local regulations.

Disposal Method: When disposing of waste or surplus amount avoid contact with eyes & mouth. Do not mix waste with other materials.

Do not dispose of bulk quantities directly into drains. Single units can be disposed of with other household refuse.

**13.1.1 Contaminated packaging**

Dispose of as unused product.

Refer to Section 8.2.2 for details of Personal Protective Equipment

## SECTION 14: TRANSPORT INFORMATION

This product is not classified as a Dangerous Good by ADR, IATA or IMDG criteria. No special transport conditions are necessary unless required by other regulations.

**14.1 UN Number or ID number**

None

**14.2 UN Proper shipping name**

None

**14.3 Transport hazard class(es)**

None

**14.4 Packing group**

None

**14.5 Environmental hazards**

No data available

Unit 18 Yalberton Tor Industrial Estate,  
Alders Way, Paignton, Devon, TQ4 7QN, U.K.  
Tel: +44 (0) 1803 520048  
Fax: +44 (0) 1803 520910  
[enquiries@adslaboratories.com](mailto:enquiries@adslaboratories.com)  
[www.adslaboratories.com](http://www.adslaboratories.com)

**14.6 Special precautions for user**  
No data available

**14.7 Maritime transport in bulk according to IMO instruments**  
Product is not transported in bulk.

## SECTION 15: REGULATORY INFORMATION

This safety datasheet complies with the requirements of GB CLP Regulation, UK SI 2019/720 and UK SI 2020/1567

**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

EH40/2005 Workplace exposure limits.

**15.2 Chemical Safety Assessment**

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

## SECTION 16: OTHER INFORMATION

### Pictogram

None

### Signal Word

Not Classified

### Full text of H-Statements referred to under sections 2 and 3

None required

### Full text of P-Statements referred to under sections 2 and 3

None required

### Supplemental Hazard Statements

None

### Key to abbreviations:

ADR - International Carriage of Dangerous Goods By Road (ADR)

ATE - Acute Toxicity Estimate

IATA - International Air Transport Association

IMDG - International Maritime Dangerous Goods

PTB - Persistent, Bioaccumulative and Toxic substance

vPvB - Very Persistent and Very Bioaccumulative
